

Information for Poster Presenters

Poster Panel Size

The display area for each poster on the panel of the poster board is 62 cm x 85 cm. Each poster will be assigned a designated spot. Please ensure that your poster does not exceed this size.

It is recommended that you leave a margin of at least 5 cm around the poster. When preparing your poster and considering how much of your display will be visible at eye-level, please bear in mind that panels will be mounted on stands. We advise using a thin material to print your poster on to.

Fixing

The conference organiser will provide materials for the installation of delegates' posters during the conference. The posters will be displayed on stands, so there is no need to stick them onto backing materials such as cardboard or foam board.

Session Time

One poster session is planned as part of the multi-conference. Authors are requested to be present at their posters at the designated presentation time to discuss their work.

Poster session: Friday, 17.04.2026., 15:00-15:30

General Guidelines for Poster Production

Poster Layout

Use matt finish rather than glossy paper. Arrange materials in columns rather than rows. It is easier for viewers to scan a poster by moving along it rather than by zigzagging back and forth in front of it. An introduction should be placed at the upper left and a conclusion at the lower right.

The content of the poster should be divided into the following sections: the purpose of the research, the used methods and tools, the main results, and the key conclusions.

Illustrations

Figures should be designed to be viewed from a distance and should use clear, visible graphics and large type. Each figure or table should have a heading of one or two lines. Additional essential information should be provided below in a legend. Photographs should have good contrast, sharp focus and, if necessary, an indication of scale.

Text

Minimise narrative. Use large type in short, separated paragraphs. Numbered or bulleted lists are effective ways to convey a series of points. Do not set entire paragraphs in uppercase or boldface type.

Titles and Fonts

Titles and captions should be short and easy to read, in a sans serif font for preference. Use large lettering as this means a number of people can read the poster from a distance without overcrowding. Remember to caption your poster with the title, authors names and affiliations.

Headings should be 60–80 points in size

The font size of 22–28 points is suitable for text
